

# Compounding Under Attack

(FDA's Latest Attempts to Eliminate Compounding)

## *An Emord & Associates Teleconference*

Teleconference Date:  
**May 15, 2008**

The Food and Drug Administration is endeavoring to eliminate compounding except in the narrowest of circumstances. Learn of FDA's latest crack-down on compounding pharmacies and what steps may be taken to minimize the risk of adverse FDA action. In this informative teleconference, the attorneys at Emord & Associates explain:

1. The recent history of FDA action against compounding pharmacies
2. FDA's view of the limited role of compounding
3. The steps compounding pharmacies may take to minimize their risk of federal liability
4. FDA's recent investigations of compounding pharmacies and the legal limits on those investigations
5. How best to respond when FDA investigators show up unannounced at your pharmacy
